

Perdite di carico all'evaporatore coassiale/Coaxial evaporator pressure drops (standard)

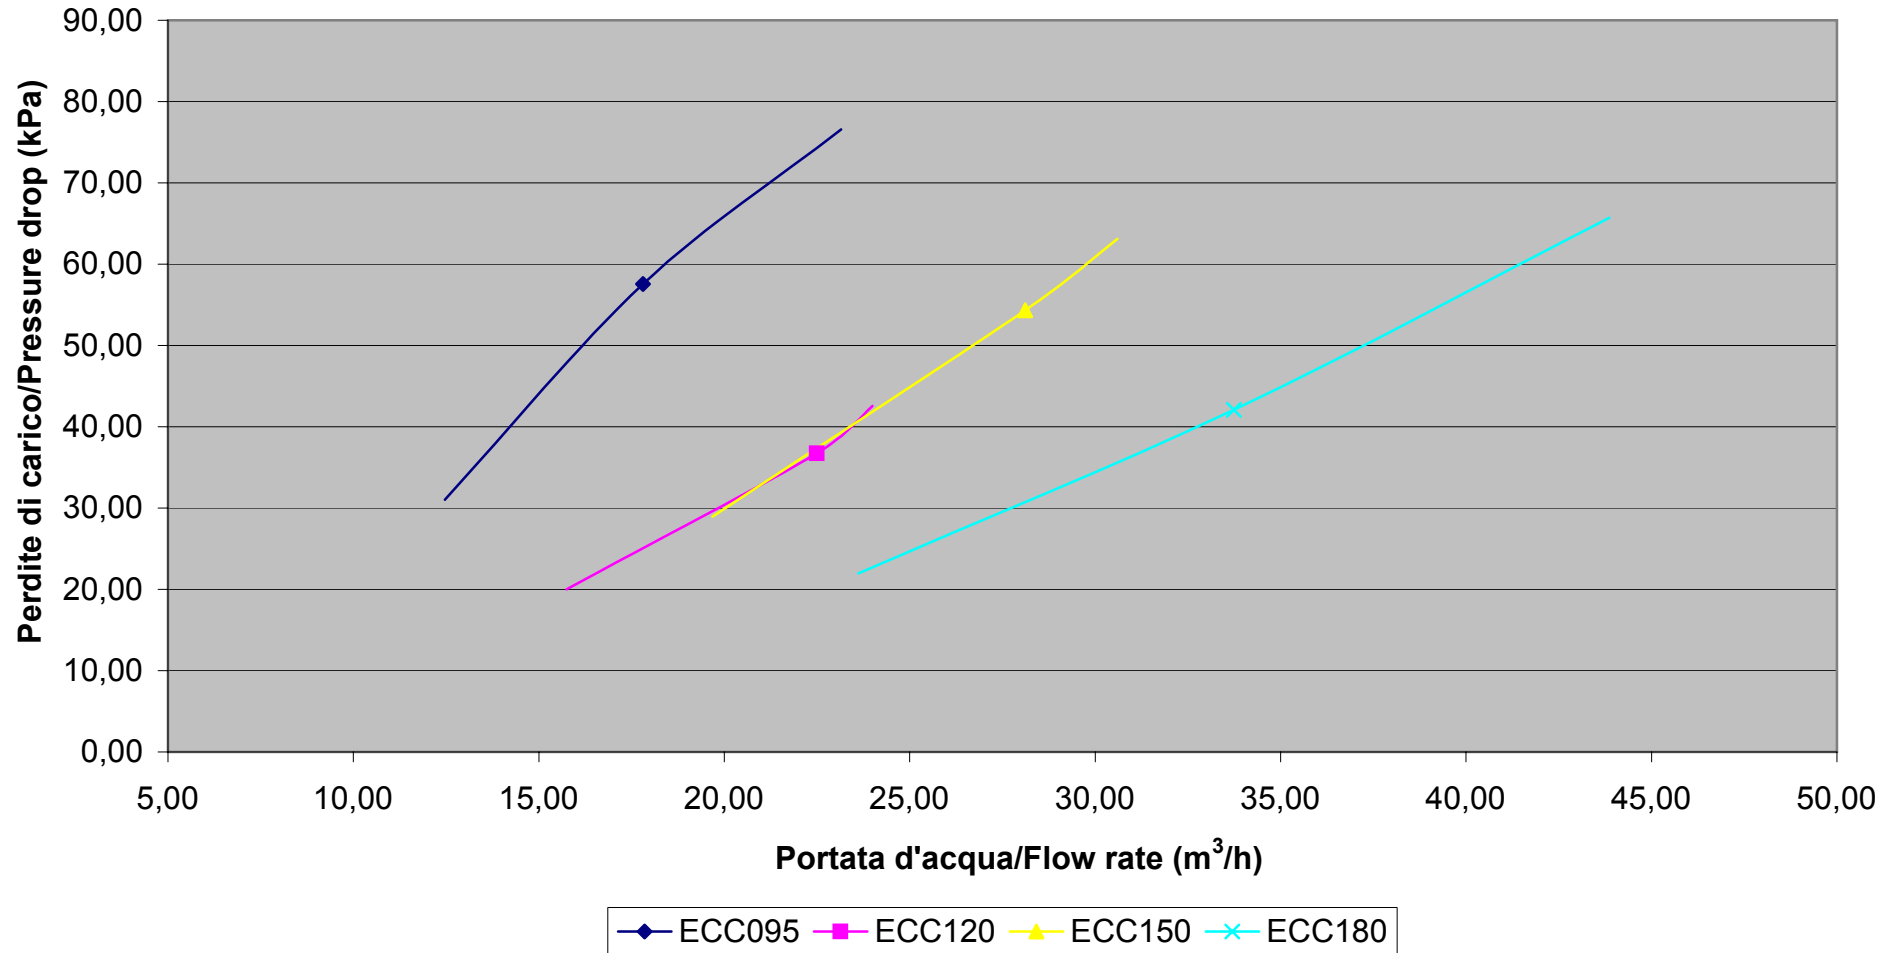

(gas frigorifero/refrigerant: R407C; fluido raffreddato/cooled fluid: glicole etilene/ethylene glycol 30%)

ECC.010/CHP ÷ ECC.085

Perdite di carico all'evaporatore a fascio tubiero/Shell& tube evaporator pressure drops (standard)

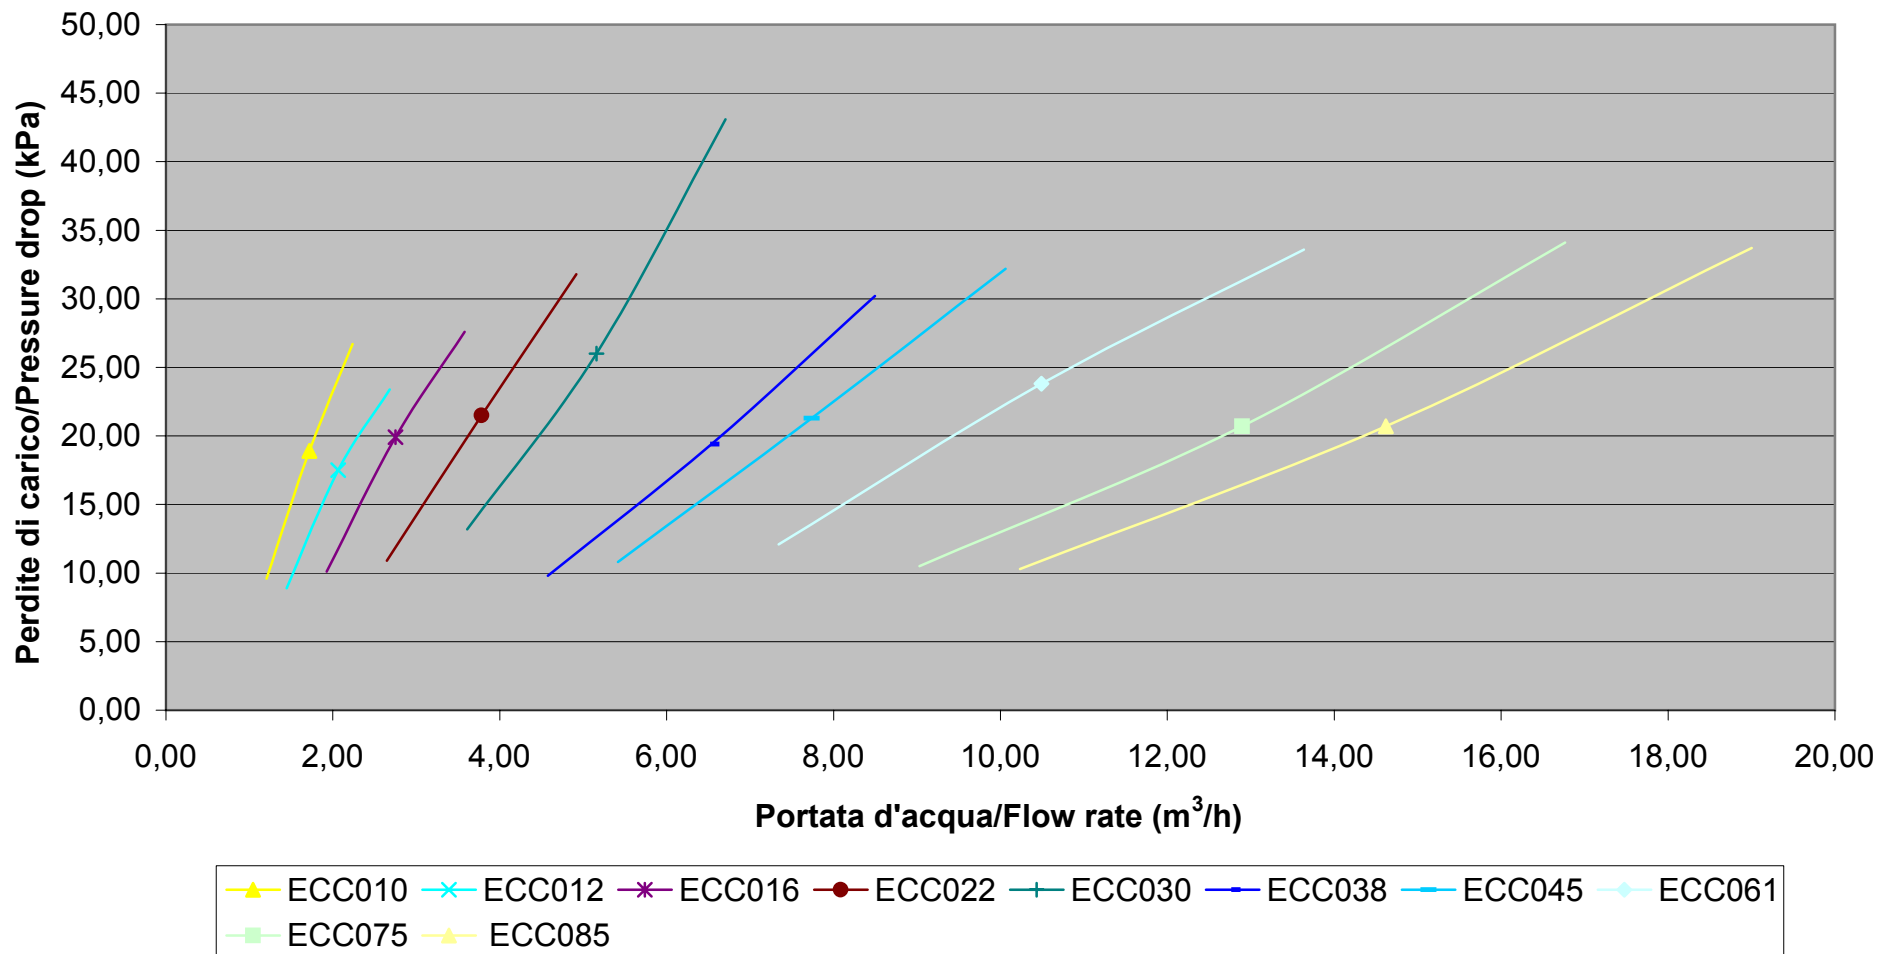

(gas frigorifero/refrigerant: R407C; fluido raffreddato/cooled fluid: glicole etilene/ethylene glycol 30%)

ECC.095/CHP ÷ ECC.180/CS STT

Perdite di carico all'evaporatore a piastre/Plate evaporator pressure drops

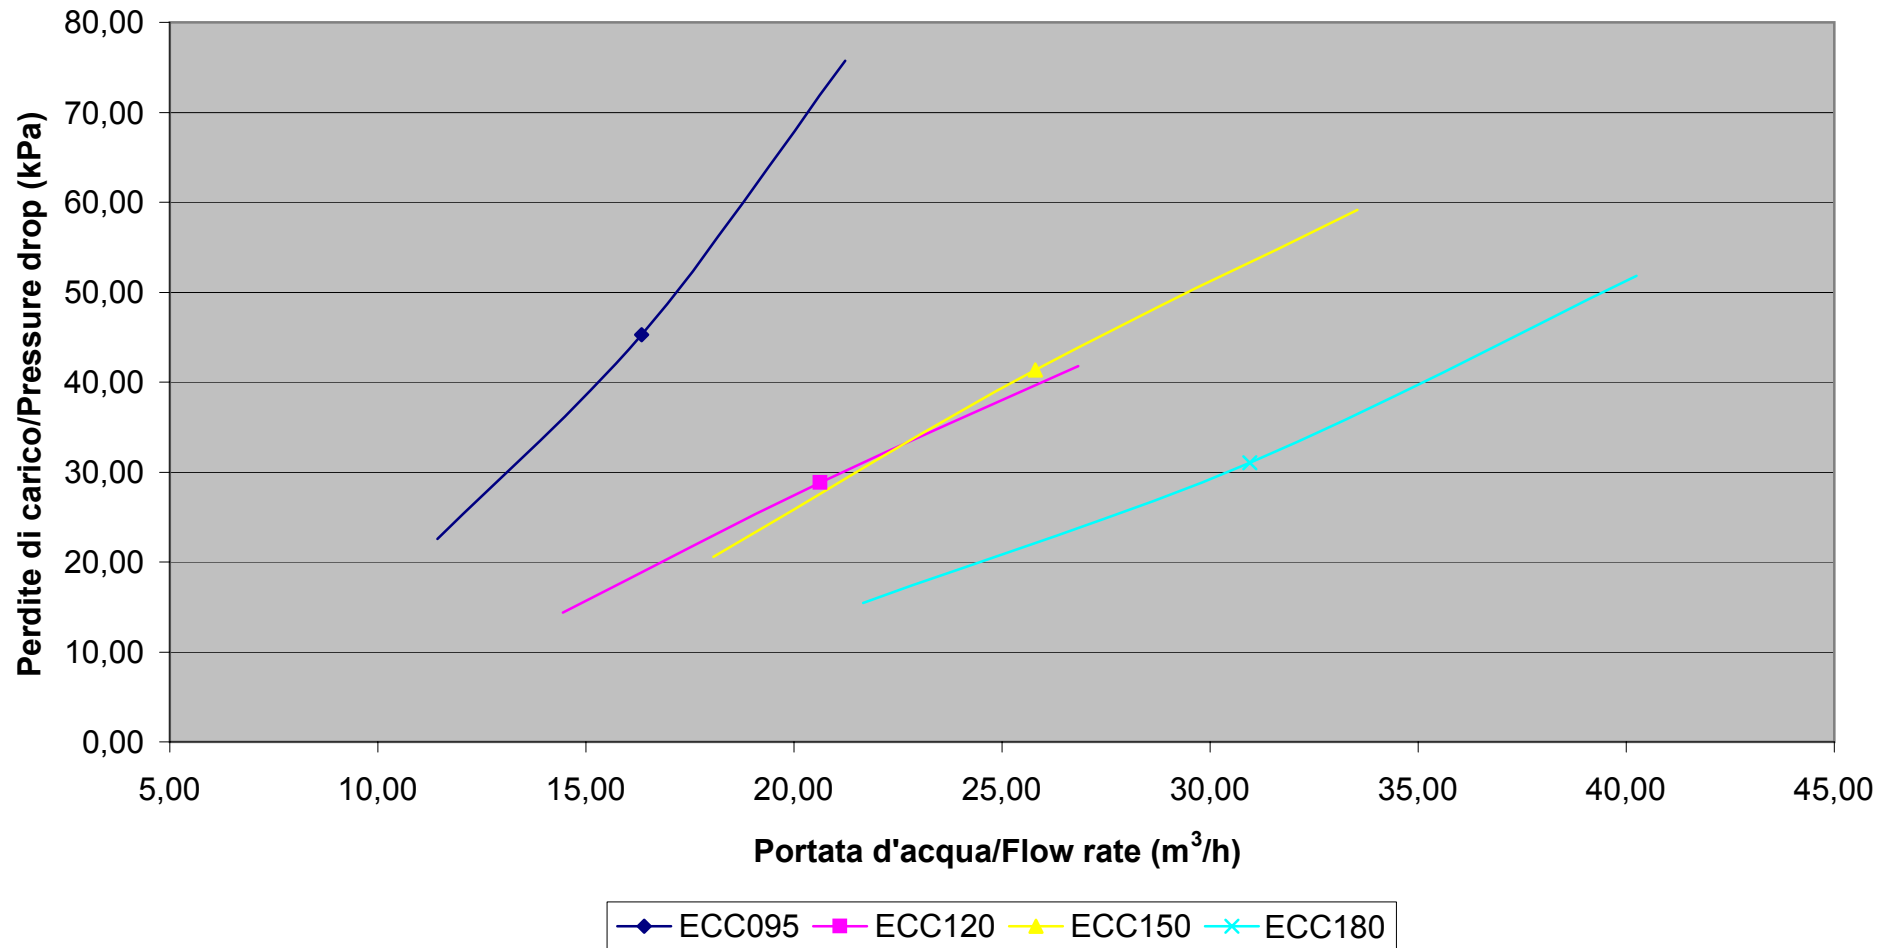

(gas frigorifero/refrigerant: R407C; fluido raffreddato/cooled fluid: acqua pura/clean water)

ECC.010/CHP ÷ ECC.085

Perdite di carico all'evaporatore a fascio tubiero/Shell& tube evaporator pressure drops (standard)

(gas frigorifero/refrigerant: R407C; fluido raffreddato/cooled fluid: acqua pura/clean water)

ECC.095/CHP ÷ ECC.180/CS STT
